

CONSULTANTS TO BOARD

The Long Hill Township Board of Education (BOE) will consider hiring expert consultants when it feels its own resources are too limited to conduct a complete study of an important topic for decision or to supply a required service or whenever the Board desires an independent perspective. The fees must be consistent with budget appropriations and shall require Board approval.

Consultants, whether they are temporary, part time, or full time workers, shall exercise no administrative authority over the work of employees of the Board, but shall act only as advisors in those fields in which they are qualified to offer expert assistance.

All administrative supervision of employees shall be in the hands of those to who such responsibility has been specifically delegated.
